ABOUT ANNSHIR TECH

AnnsHIR Tech specializes in providing software test engineering services. The CEO has 11 years of experience developing and testing to create processes programmatically and automating those processes. We are experienced in .Net Framework testing/development environment Agile/Waterfall under SCRUM Methodology. We're intelligently knowledgeable with requirements Traceability Matrix (RTM) and Behavior Driven Development (BDD) ability to run thousands of automated script scenarios via Selenium (JAVA). We intuitively explain complex technical concepts in a way that non-technical individuals can understand. Our work ethic is strong, detail-oriented as team players that can work independently. We have a strong ability to manage multiple test events, strategies and end-to-end test scenarios and projects at a time in alignment of the Software Development & Test Life Cycle.

TECHNICAL COMPETENCIES

Our technical competencies align with requirements and defining the scope. As engineers, we break down the process into smaller steps by setting up our development environment by key classes, methods, data structures, etc. Designing the framework assures our testing automation implements the core functionality to automate the tasks within the defined scope.

DEV: JAVA, C#, ASP.NET, SQL

Software: Selenium, Zephyr, JIRA, Github, Netbeans, Eclipse, Visual Studio, SOAP UI, Team Foundation Server (TFS)

Database: SQL Server Management

Testing: Stress, Performance, End to End, UAT, Backend, Smoke

Environment: Agile & Waterfall Methodology, Software Test Life Cycle, Software Development Life Cycle

PAST EXPERIENCE

Comdata (Fleetcor) Brentwood, TN
Dollar General Goodlettsville, TN
MAPCO Brentwood, TN
L3 Nashville, TN
Broadcast Music Inc. (BMI) Nashville, TN
CIGNA Nashville, TN
